

LIFE IS FULL OF SURPRISES

Life helmets offer a surprisingly wide and colourful choice.

Take our eye-catching, hand painted designs from California. Only a few are shown here—those in metal flake.

But with four layers of fibreglass, a shatterproof Lexan[®] visor and a 25 mm styrafoam lining, the price should surprise you. Under £40 for full face. Under £30 for jet.

They pass the British Standards.

And another surprise. Our jet helmets, even the least expensive, solid colour

polycarbonates at £10.99, come complete with peak and Lexan[®] visor.

All Life helmets carry an unconditional free replacement guarantee against accident damage as well.

No ifs. No buts.

We don't call them Life for nothing.
