

# RIGHT BEFORE YOUR EYES

## CARRERA TIGER SC

The sports goggle designed for young riders.

More than ever, Carrera goggles are the best choice in mini-sized goggles for dirt bike riders. Not a makeshift senior sized adaptation, Carrera's TIGER SC goggle was designed from the start to fit the needs of the younger rider. Just check these features.

### 1. CARRERA'S EVERCLEAR LENS DOES NOT FOG.

The patented Everclear lens coating is applied

to the inside of the TIGER SC goggle lens to completely eliminate fogging, no matter how tough the competition or how long you wait on the start line. Carrera Tearoffs System is available to suit, as well.

### 2. CARRERA MAKES OPTICALLY PERFECT, SHATTERPROOF LENSES.

Extensive research created a lens which gives you no distortion at all – you won't even know there's a lens in front of your eyes. The wide field of vision lets you keep an eye on everything around you.

Our lenses protect you against flying stones too – no danger of eye damage exists.

The single all-weather softsight lens absorbs 98% of UV-light and allows colours and objects to appear in their true form.

### 3. CARRERA TIGER SC GOGGLE FRAMES FIT PERFECTLY.

Designed specially for young people, our Junior goggle rests comfortably on your face.

The plastic frame is designed to provide free airflow through the foam covered vents. There's even a nose piece for better protection inside today's wide vision full face helmets.

There's no problem with fit, either – Carrera's TIGER SC fits easily under all mini helmets.

### 4. CARRERA'S HYPER-SOFT FOAM WON'T CHAFE.

Carrera's patented Hyper-Soft foam formulation gives Carrera goggles the most comfortable foam ever to rest on your skin. It gives perfect sealing against the contours of your face and is extra absorbent to stop perspiration getting in your eyes.

### 5. CARRERA'S EXTRA WIDE BAND WON'T SLIP.

The wider the strap, the better it stays put on your helmet. So wherever you like your goggles to sit, that's where they stay.

Carrera's mix-and-match colours provide you with colour coordination that fits in well with the rest of your gear.
