

HEAD THE PACK

There's a good reason why the Lazer MX has become Australia's favourite off-road helmet.

And it's not just the comfort.
It's not just the lightness.
Nor is it just the aggressive good looks, or the reasonable price.

It's all of the above, and more.

Find out just how good a helmet can be — wear a Lazer MX and head the pack. Around the berms or on the street.

Conforms with Aust. Std. 1698, British Std. 2495, A.C.U. of G.B. Silver Star, American DOT Std., German Std., OMK (Racing Std).

LAZER MX HEADS THE PACK.
