

# Why Vendramini?

Classy Italian colour scheme

Simple, beautiful Italian design and quality

Foam-padded PVC inner boot for comfort, warmth and snug fit

Impact resistant, pliable plastic construction for safety and comfort

Air holes in padded liner for easy fit and to allow your foot to breathe

There are only two plastic parts for simplicity and superior strength

Strong rivetting to keep the buckles buckling

Plastic is easier than leather to maintain

Only three buckles to save time getting the boots on, or off after that gruelling race

No pinching of the shin because the boot piece extends up on the inside

This plastic is designed and engineered to last a long time

Trouble-free plastic hinge which doesn't need constant maintenance to keep working

Boot section is one moulded piece

Strong, impact resistant toe section in case of rocks

Smooth or cleated sole

Exclusive Vendramini logo

Buckles can be operated with gloves on

Easy to use buckle system

Full ankle movement

No uncomfortable bulges on the inside from the hinge

## CARIBEE THROWOVER SADDLEBAGS

Two models are available: RR1, which is the smaller of the two and which is available in Rich Brown; and RR2, larger and available in Black. Made of PVC Spongeback Rayon for durability and water-proofness, and complete with straps to secure the bags to the bike.

Available at most motorcycle shops.
