

The All-Australian Eldorado

**Strong, yet lightweight
for on and off-road riding.
Jet-styled. The All-Australian helmet
called simply EXR.**

EXR for ultimate head protection.
EXR is supremely comfortable.
EXR is an Open face design created in
Australia to suit our climate,
from the toughest materials our
laboratories can muster.
If you're going to come unstuck, it's best
to be wearing EXR. Its strength resists
the hardest impact. Shock waves
dissipate evenly across its surface.

Secondary impact energy is absorbed
through the EXR's inner shell, with its
own soft, comfortable velour lining to
further shield your head.
Eldorado EXR. The All-Australian
Challenger. All-Australian safety
technology at its best.
Available in
popular colours
and sizes.
