

## Ford introduces the trickiest trucks in town.

**Free Wheeling Stylesides** feature an ultra-trick black and silver interior with red accents on the seats and dash.

**Ford's new Free Wheeling options** are the hot numbers this year.

The Free Wheeling Styleside's wild rainbow stripes are guaranteed to get attention. And its black front bumper/pushbar rounds out its tough good looks.

And there's something more that's really something else!

Ford's new Free Wheeling Shorty. Its zoomy pinstriping treatment definitely gets it. Plus there's a blackout grille and flat-black rear bumper.

And on either truck, you can get optional forged aluminum wheels and raised white-letter tires.

The new Free Wheeling Fords. For those who like to trick 'n' truck.
