**WARNING:** Much of the action depicted in this magazine is potentially dangerous. Virtually all of the riders seen in our photos are experienced experts or professionals. Do not attempt to duplicate any stunts that are beyond your own capabilities. Always wear the appropriate safety gear. *Dirt Bike* does all of its testing and photography legally on public land, or private land with permission from the owner(s), and we abide by the local laws concerning vehicle registration and muffler/spark arrester requirements. We are not responsible for quality of aftermarket accessories we use.

**ON THE COVER:**—Dave Gestoso loops his exhibition CR500R into the stratosphere for the lens of Torquin' Tim, while Tom White travels through time with his '67 Greeves Challenger and the Suzuki Country Racing RM350 awaits the 500 Nationals. In the Table of Contents, Karl Ockert snapped the photo of Jeff Ward wailing at Southwick, MA. Tasteful cover design by DeWest; color separations by Valley Film.

**A** total of 320 riders showed up to compete in the World Championship TT and motocross events at Goat Breker's Perris Raceway. Although the competitors were as serious as could be, it did not take away from the jovial mood of the race. Hot racing, a vintage contest, lots of prizes and great trophies marked a good time for all. This is a must-participate event!

A four-stroke race wouldn't be complete without defending champion Goat Breker. Breker was fast but encountered problems which kept him from victory. Breker leases the land on which Perris Raceway resides.

◀ Open Pro MX winner Greg Ziterkopf captures the start of moto two. Jeremy McGrath follows closely while Goat Breker swoops on the outside.

Holmer Knapp aboard his 1928 two-cam, 88" Harley-Davidson JD. ▶

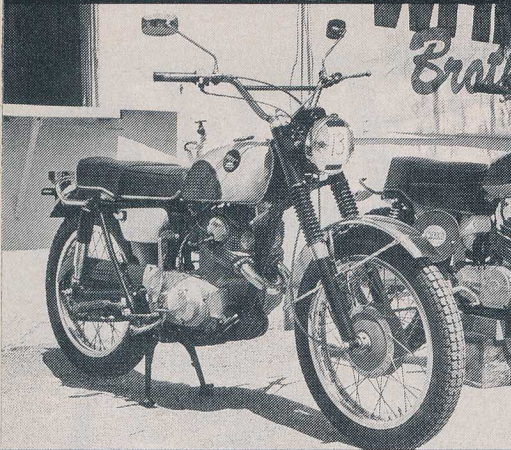

Tom White competes in his own event. The retired dirt track expert placed second in the Vet Expert TT.

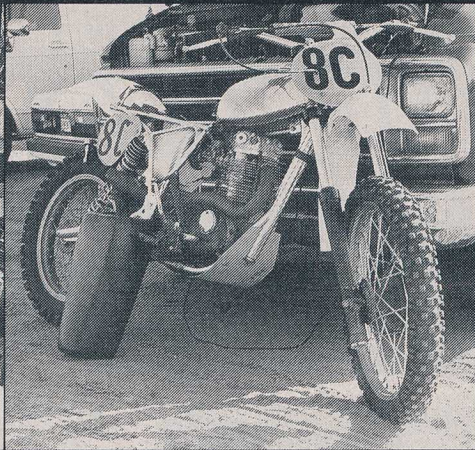

Matt Hilgenberg on the beautiful Triumph Rickman.

## DISC DRIVE POWER

In the old days, if you wanted more performance from your thumper, you and everyone around you had to put up with a lot of exhaust noise. But no more.

Supertrapp's high-tech radial diffusion design provides more optimum exhaust flow at lower noise levels than other exhaust systems. Our removable discs allow you to control both exhaust flow and noise. Reducing the number of discs holds sound levels, while at the same time increasing low-end torque. Less noise. More grunt. Not only is the Supertrapp system the most tunable exhaust offered in the world, it also includes a built-in U.S. Forestry approved spark-arrester.

At Supertrapp we recommend the system that gives increased performance and tunability.

And that's sound advice.
