

"Handling? You better believe it!"

—Jimmy Ellis

*Winner of back-to-back
motocross Superbowls.*

1. All-new magnesium Marzocchi front fork.
2. Magnesium used for many parts to reduce weight.
3. New style high pipes retain peak horsepower.
4. Rotax engine with broader powerband—rotary valve induction.
5. New gas bag rear shocks. Mounted in the lay-down position.

*Trademark of Bombardier Limited.

CAN-AM^{*} MX-3.

Can-Am makes winners.

Can-Am's always had the power. Now comes the slickest handling in the business. Like a lightweight

spring to control chatter bumps. Velocity-position-sensitive damping to smooth out the heavy stuff. Hydraulic top-out valving to kill wheelstand rebounds.

It's a winner. See what you can do with it. See the Can-Am MX-3 250 cc and 175 cc models right now at your dealer.
