

ABSURD.

If F.X. Bulto decided to put his symbol on a baby grand, the piano would be as famous for quality as his motorcycles.

But he won't.

Señor Bulto, his family and associates founded the Bultaco tradition on a singular product. Motorcycles.

We don't have to tool up for keyboards

one week and transmissions the next.

We channel all of our resources to designing and crafting an off road motorcycle of utmost quality. The kind of quality that makes riding so rewarding. Whether you're competing or cowtrailing. The kind that lets us offer a full sixty day warranty on our bikes.

Do not be surprised when you see other motorcycle manufacturers continue to put their resources and names on other products. You'll see the Bultaco name on just one.

A top quality motorcycle. Built by a company that makes motorcycles. And nothing else.

Our Only Product.
