

HOW SERIOUS ARE YOU?

The Brand New Arai MX/r.

If you took the best features of Arai's legendary MX-Pro, and added a whole bunch of new ones, do you know what you'd get?

A helmet as good as the brand new Arai MX/r.

Starting at the top, the MX/r has a trick new visor with a new air induction system that gives you improved airflow when it's open, and no air flow at all when closed.

The MX/r's earcups are removable and replaceable with ones of a different thickness to give you the benefits of a better, more custom fit.

It has a new interior design that maximizes the airflow from the new Top Scoop.

And it comes in 14 they'll-see-you-comin'-from-a-mile-away colors and designs, including two brand new Jeff Stanton Replica models.

But the new MX/r still has the features that were already too good to change. Like Arai's exclusive Adjustable Removable Rockguard that flexes to help prevent injuries that might be aggravated by rigid, one-piece guards.

And Arai's special liner fabric that draws moisture away from your head and into the airflow to help keep you cooler and drier. Yet it's easy to keep clean without having to pull it apart.

MX/r Splash

The brand new Arai MX/r. If you want our best, call our new toll-free number for the location of your nearest Arai dealer — the *best* place to find the helmet and the fit you're looking for.
