

Health food for all Suzuki 2-strokes.

And that includes RM
Motocrossers and PE Enduros.

Which means Suzuki's new
CCI Super 2 Lubricant must be
fantastic. Because the sophisticated
racing mills used in RMs and PEs
demand nothing short of perfection in
lubricants.

Ok, what makes Super 2 so good?

Well, thanks to a specially devel-
oped formula, Super 2 contains a super
high film strength. Which allows it to
stand up to the severe heat and friction
generated by competition engines and
still burn cleanly.

In other words, clean-burning Super 2
minimizes carbon deposits, gum formation,
plug fouling and sticky rings. While protecting
against bearing failure, piston scuffing and
seizure.

Result: High performance two-strokes can
go the limit without going to pieces.

So you see, Suzuki's CCI Super 2 Lubricant
is pretty healthy stuff.
