

START YOUR RACING CAREER WITH A PAIR OF SCISSORS.

High-tension tubular steel frame is lightweight, strong.

Contoured, adjustable seat Comes in 2 sizes.

Long-wearing Duralumin sprocket and super-strength steel axle. Disc brake, too.

Tubeless slicks all around for high-speed handling.

Steering wheel adjusts to 3 positions.

The KT 100S 2-stroke with Transistor Controlled Ignition. The most dependable race kart engine in the industry.

Some of the biggest names in racing got their starts on karts.

Not lawnmower-like go-karts, but precision race karts. Like the Yamaha RC 100S. It's the only production kart of its kind: race ready and flat out fast, right out of the box.

Until you've flown 2" off the ground going 70mph, you don't know what speed really is. And unless you send in this coupon, you may never know.

I want to know!

- More information on the RC 100S.
- Where can I see one?

Name _____ DB5

Street _____

City _____ State _____ Zip _____

Send coupon to: Yamaha Motor Corporation, USA
P.O. Box 6620, Buena Park, CA 90622 Attn: Karting Dept.

YAMAHA

When you know how they're built.
