

AMERICANS RECLAIM AMERICA.

Over here, over there, the Yanks are comin'. And we're taking back America. One race at a time. With America's only full line of off-road motorcycles.

And we're not just winning battles. We're winning wars. Like the AMA National Hare Scrambles Championship. Two consecutive World 4-Stroke Motocross Championships in '89 and '90. We're the AMA National 4-Stroke Motocross Champions. We've taken Barstow to Vegas. And Baja is next.

Whether it's a 2-stroke or 4-stroke, a 250, 350 or 500, for motocross or cross country, we're making bikes with the power to win. Bikes built with American ingenuity. Bikes that handle. Bikes with suspension that's set up right, right from the factory. At ATK we believe if you're going to do it, do it right.

So if you're out to win races or simply out to enjoy the purple mountain's

majesty, we've built a bike for you. Because we believe in freedom of choice.

So gentlemen, choose your weapons.
