

UP YOUR PE

Kerker unleashes the Power.

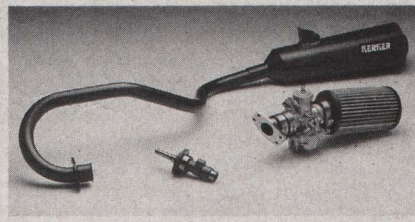

Who says that the factory 3-Wheelers have the best rides. Not Kerker. Because now we're bringing performance that challenges the factory racers to every ATC owner. Up yours with the Kerker ATC engine kits. Three models designed by 3-Wheelings finest R&D group. Three ways to up your power and improve your performance. Three complete kits, fully tuned to turn up your boost!

Stage I Kit, 14bhp

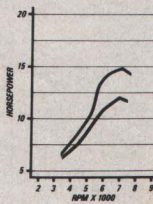

Roost ahead with this Kerker designed advantage. The Stage I power kit delivers an 18% horsepower gain to 185/185S/200 ATC machines. Kerker's customized cam, 1 1/8" diameter exhaust and fully jetted 26mm Mikuni carb make this one Hot system. Together they improve total performance, up low-end torque and plain blast you away!

While testing our ATC power pipes, **Team Honda** bested the Baja Desert. They've captured every major 3-wheel title ever awarded; they came to Kerker to improve their performance - now shouldn't you follow the leader, to Kerker.

Stage I parts list

- 1000H** Complete Kit
 - 5302** Kerker 1 1/8" dia. exhaust
 - 1002H** 26mm fully jetted Mikuni carb
 - 6004H** K&N air cleaner
 - 1001H** 340 lift/266° duration cam
 - 6020H** Kerker Intake Manifold
- Stage I not available for Honda 200X

RPM	ATC 185	HP STAGE I
3500	6.46	5.87
4000	7.14	6.93
4500	7.78	7.70
5000	8.81	8.84
5500	10.00	10.10
6000	11.06	12.86
6500	11.55	13.57
7000	12.03	13.94
7500	11.73	14.16
8000		13.61

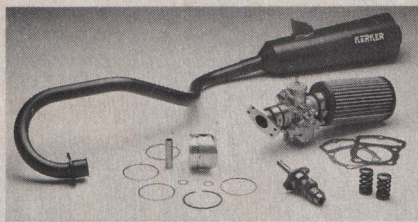

PERFORMANCE!

Stage II Kit, 17bhp

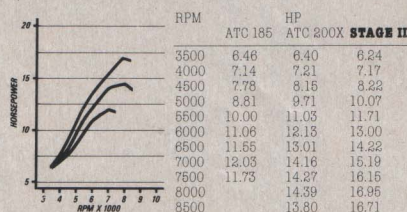

Power yourself into open competition performance with the Kerker Stage II engine kit. It gives the all-new 200X 18% more power; it gives the 185 series machines 41% more muscle!

First enlarge the cylinder and drop in a forged, 65.5mm 10.7:1 high compression piston to up the engine to 195cc's. Then feed it through a fully jetted 26mm Mikuni carb/Kerker intake manifold assembly. Replace the top end with a Kerker designed camshaft and heavy duty chrome-silicon valve springs, and finally install the only thing your fellow riders are ever going to see, the Kerker 1/4" diameter exhaust pipe!

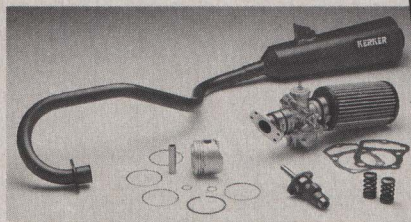

Stage II parts list

- 2X00H** Complete Kit, 200X
 - 2000H** Complete Kit, 185/185S/200
 - 5324** 200X exhaust system
 - 5303** 185 series exhaust (Kerker 1/4" dia. system)
 - C1001H** 26mm fully jetted Mikuni carb
 - C020H** Kerker Intake Manifold
 - G004H** K&N air cleaner
 - C010H** .362 lift/270° duration cam
 - C012H** 65.5mm 10.7:1 piston kit
 - G005H** Heavy duty chrome-silicon alloy valve springs
 - G006H** Head gasket
 - G007H** Base gasket
- This kit requires cylinder boring.

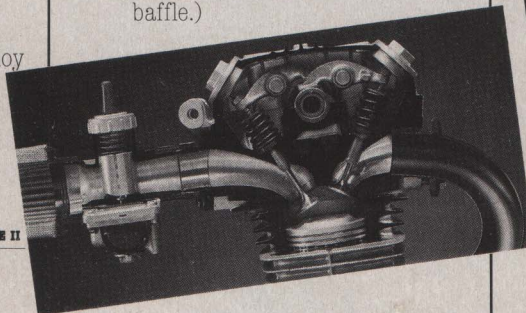

The Stage III Kit, 21bhp

Beware. This kit is for riders competent enough to be factory racers only. Kerker assumes no responsibility for misuse of this power. Because it takes more than courage to manage the 44% 200X power increase or the 72% more horses that Kerker's Stage III Kit brings to the 185 Series. Stage III advances racing technology with a Kerker engineered system that increased both intake and exhaust manifold flow for more engine efficiency, greater power and higher rpms. A complete 28mm Mikuni carb and Kerker intake manifold fuels the Kerker flow tested head. You send your original head to Kerker for finishing. A Kerker racing pipe clears the exhaust. And the bored out 198cc (66mm 12.2:1 high compression piston) engine explodes the flow into pure firepower!!

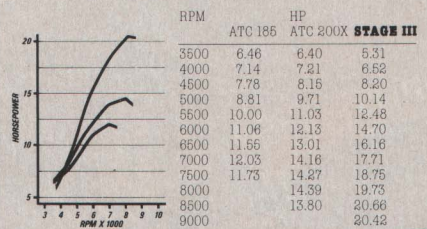

Stage III parts list

- 3X00H** Complete Kit, 200X
- 3000H** Complete Kit, 185/185S/200
- 5308** 200X exhaust system
- 5304** 185 series exhaust (Kerker 1 3/8" dia. system with Medium Comp baffle.)

Kerker Stage III system featuring the Kerker flow perfected head. A 24% flow increase across both valves is achieved with this setting.

- G002H** 28mm fully jetted Mikuni carb
- C020H** Kerker Intake Manifold
- G004H** K & N air cleaner
- G013H** Custom domed 66mm 12.2:1 forged piston kit
- C011H** Kerker designed dual pattern camshaft
- G005H** Heavy duty chrome-silicon alloy valve springs
- G006H** Head gasket
- G007H** Base gasket

Up Yours Too.

Go ahead. Select your package and send certified Check, Money Order, VISA, or Mastercharge number (including expiration date) to Kerker. Stage I - \$260.00. Stage II - \$360.00. Stage III - \$585.00. Call for Stage III head shipping instructions or further information. Shipping & Handling \$15.00
