

# The Sound Solution

**Or, how  
to gain  
5 horsepower,  
lose 5 pounds  
and get legal  
noise levels.**

If you've got a 4-stroke dirt bike, we've got the ultimate in exhaust system products: new 4-inch SuperTrapp.

On the 500-cc singles, you'll get the 5-pound weight reduction and, with proper jetting, you can tune SuperTrapp for up to a 5-horsepower increase with legal noise levels.

On Honda 500-cc Pro-Links and smaller-displacement dirt bikes, you'll get

very similar results, plus the standard SuperTrapp benefits: maintenance-free, all-mechanical construction; Forest Service-approved spark arrestor; no packing to burn out or replace; clearance for knobbies; and bolt-on installation in minutes using factory mounts.

Want to know more? Write today and we'll send you technical and ordering information and price lists.
