

Are you ready for a race-developed Yamaha?

From the '125' to the completely new 6 speed '400' Yamaha's 'RD' motorcycles are all race-developed machines. That means road holding second to none whether you're on the quick 250, the electric start 200, the sporty 125 or the new 400. Between you and the road wouldn't you prefer a race-bred Yamaha?
