

# Z650. GETS YOU OUT OF TIGHT CORNERS.

**FAST.** Z650. It gives all round performance well into the 750 class. Vivid acceleration, exhilarating top speed.

But you know that no road is straight forever, and that's the way you like it. The Z650 has all the handling you need to get into and out of tight corners, fast.

We made our name from the performance of our machines in racing and on the road— and we believe that performance should be completely useable.

Z650 has it all. It's built to give you the sheer joy and freedom of riding, swooping through country bends, cruising easily along high roads, making distances shrink.

Z650, like all Kawasakis, is made for the good times.

Let them roll.
