## CAL RAYBORN

● Harley-Davidson 'works' rider, holder of the world motorcycle speed record at 265 mph and America's top scorer in the recent John Player Anglo-American match race series, Calvin Rayborn hails from Spring Valley, California. On his first race visit to the UK he set the British short circuits alight by beating some of our best riders on his 70 horse-power, iron-barrelled, V-twin Harley-Davidson 750. In doing so, Cal also notched up outright lap records for Brands Hatch and Mallory Park, plus the 750 class lap record at Oulton Park. Cal began road racing seven years ago and now at 32 years of age must rank among the world's top road racing motorcyclists . . . come back, Cal!
