

Roadrunners outraced the rest

23 outright wins

In the highly competitive 1977 Avon Roadrunner Championship, twenty three out of thirty races were won on Avon tyres.

In eighteen of those races, Roadrunners were placed first, second and third. Which means that in every class - the 250cc, the 500cc and the 1000cc - Avon Roadrunners beat all other tyres out of sight.

Check out Roadrunners now. They could make all the difference to your bike's performance.
