

Talking Triumph

"...and I've still got the old Bonneville in the back of my garage.... can't bear to sell her, but can't ride her either. Does my back in after five minutes. My son takes her out now and then though...says she goes like a dream...Course, that's Triumph for you. Make 'em fast but build 'em slow...that's been their philosophy all along. Quality pays off in the long run...always been a Triumph man - always will be...seen my new one?"
