

A)

The standard by which all helmets are judged.

SNELL 80 AND MARUSHIN!

We're no pretenders! SNELL 80 is a tough standard to achieve - by anyone's standards.

Many helmets don't make the grade - Marushin does. Marushin MG Moto and Imperium are made by Japan's most respected company to exacting standards.

If it hasn't got SNELL 80 approval chances are it's not a Marushin. Why settle for second best?

Insist on quality, insist on safety; SNELL 80 and Marushin! Available at all good motorcycle shops.
