POWER PADS

You won't always want to brake as hard as the guys that race, but it's nice to know your S.B.S. Power Pads are there when you need them.

S.B.S. Power Pads combine the needs of both the Racer and the Road Rider.

LONG LIFE
STOPPING POWER
and **NO FADE** even after many hours of use at racing speeds.

Those qualities combined with great **WET WEATHER PERFORMANCE** and **NO SQUEAL** in the dry make them the perfect choice for Road and Racing.

Next time you buy brake pads, join the winners like TEAM HONDA rider Malcolm Campbell and fit S.B.S. Brake Pads.
