

TEN YEARS AT THE TOP

CB 750 KZ

two wheels

BIKE OF THE YEAR

"Honda's CB750KZ... an amazingly adaptable motorcycle which, through mechanical sophistication has become the most economical and quickest of the 750s by fair margins in both cases. It is capable of 17.9 kilometers per litre (50 MPG) consumption." Mac Douglas, Editor, Two Wheels Magazine.

High praise indeed from a man who lives with motorcycles every day of the year. Two Wheels magazine named the new CB750KZ "Bike of the Year" in 1979. For more than ten years, Honda CB750's have been setting the standard... Ten years of development... Ten years at the top!

See the new Honda CB750KZ, plus the exciting new CB900FA and CB650Z at your local Honda dealer.

Times change but Honda Motorcycles remain steadily ahead of the times.
