

CLING

RUBBER

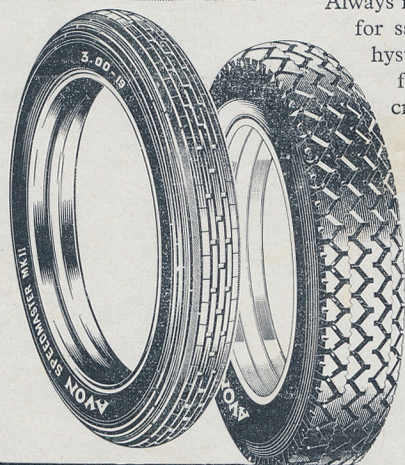

AND YOUR SAFETY

At last, rain tyre rubber is for you—the rubber which in World Championship events last season produced fantastic cornering in the wet—the rubber which will give you, on your machine, 23% more grip on wet roads with improved handling, acceleration and cornering.

Always in the lead in racing, and with paired tyres for safer solo riding, Avon have added high hysteresis cling rubber to the already outstanding features of their famous and popular pair, creating new standards for your performance and safety with...

**S.M.
SPEEDMASTER-and-(Safety Mileage)
Mk II**

The ribbed front tyre for positive braking, perfect steering, and long, even wear free from 'centre peak'—now with the extra plus of 23% more grip on wet roads!

The new rear tyre developed from Grand Prix race winning design with full, rounded contour and extra sipes for even better cornering—plus 23% more grip in the wet!

And for 'chairmen' AVON TRIPLE Duty Mk II with cling rubber safety for all three wheels of sidecar outfits.
