IT TAKES EXPERIENCE TO BUILD THE BEST DIRT BIKES. HUSQVARNA HAS 90 YEARS OF IT.

1903—1993

Husqvarna 610
Australian 4-Stroke Champion, '88, '89, '90, '92, '93.

This year Husqvarna celebrates 90 years in the production of motorcycles. That's longer in continuous production than any other motorcycle name in the world.

So when we come to designing and building our dirt bikes, we really know our stuff.

You want proof? Well, this year for the first time in more than 20 years, a four-stroke won a round of the World 500cc MX Championships.

That's in among a field of factory two-strokes. The bike? Husqvarna's awesome TC610 – what else?

Husqvarna also builds World Championship winning two-strokes, both enduro and motocross.

And you'll never get caught waiting for a spare part for a Husqvarna. Not that you'll need many.

So next time you're thinking new bike, think about Husqvarna's 90 year track record.

With a Husqvarna, we bet you'll be setting a few records of your own.

See the full '93 Husqvarna range at your dealer's now.
