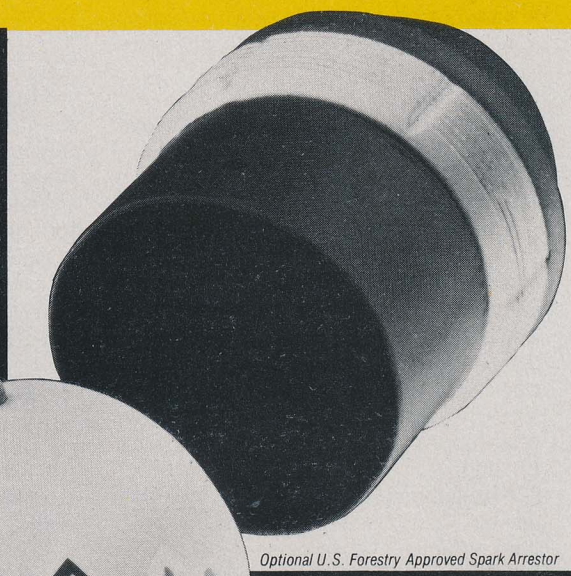
Introducing the ultimate. The new Richter Privateer Aluminum Silencer. It's lightweight, yet incredibly strong. It's quiet, rebuildable and affordable.

Richter's trick new design compares to no other. Every part, one by one, is hand made from aerospace tough material. Check out the mounting system. A rubber mounted, aluminum extruded clamp provides extra strength and a perfect fit. We guarantee it.

Check out the certified heliarc welds – they're flawless. Check out the optional U.S. Forestry Approved Spark Arrestor – a Richter first. Go ahead, take it apart and check out the fiberglass insulation. Able to withstand 2400°F, it's no secret why NASA uses it to insulate the space shuttle.

And most important, check out the performance. Richter Silencers are Airflow designed to yield peak potential horsepower from your engine and pipe combo.

This is the bottom line – we don't pay factory riders to say they use our product, our Silencers speak for themselves. SSHHHHH!



Optional U.S. Forestry Approved Spark Arrestor
